It is with great pleasure that we extend our heartfelt appreciation for your outstanding contributions during your two-month internship with the Indian Cybercrime Coordination Centre (I4C), Ministry of Home Affairs, from **May 30 to July 31, 2025**. Your work within the **National Cybercrime Threat Analytics Unit (NCTAU) Division** has significantly advanced our mission to combat cybercrime across the nation.

Your remarkable efforts included conducting **vulnerability assessments and cyber threat intelligence analysis** using advanced **Open Source Intelligence (OSINT) tools**, significantly strengthening internal monitoring capabilities. You played a critical role in identifying and reporting **severe security vulnerabilities** in multiple **government domains**, responsibly disclosing them, which contributed to improving the national cybersecurity posture. Your work showcased strong technical proficiency and an exceptional sense of responsibility in handling sensitive cyber threat.

In addition to your threat intelligence contributions, you **developed automation tools and scripts** to streamline repetitive investigation tasks, optimize data extraction workflows, and support case correlation efforts. You also conducted an **in-depth research study on Russia's cybercrime governance model**, analyzing legal, institutional, and operational frameworks. By comparing these structures with Indian institutions like CERT-In and NCIIPC, you provided actionable insights that aligned global practices with domestic needs. Your initiative and technical innovation consistently supported the organization's mission toward a safer cyberspace.

We deeply appreciate your dedication and invaluable contributions to I4C's objectives. As you continue your academic journey at **Institute of Informatics and Communication, UDSC** and pursue your professional aspirations, we are confident that your talent and commitment will lead to continued success. We wish you the very best in all your future endeavors.
